

# Product Data Sheet

## Kerosene

### DESCRIPTION

Nemco Kerosene is a low odour, low sulphur fuel designed for use in both burner and wick-fed illuminating lamps. Ensure proper ventilation and exhaust systems are in place when using this product. When used in burner applications, a proper flue that is vented outside is generally required.

Always follow the equipment manufacturers' guidelines and safety instructions. Nemco Kerosene is a 1-K specification kerosene that meets ASTM D-3699 requirements.

### Typical characteristics

Test	Result
Colour	Clear
Specific gravity (15.0°C / 60°F)	0.81
% Sulphur, mass	0.04
Flash point , D56, °C	40
Cloud point, °C	-39

*Physical characteristics shown in the table are typical and may vary slightly.*
