

Product Data Sheet

PolarZone™ Windshield Washer Fluid Winter Windshield Washer & Insect Remover

DESCRIPTION

Nemco PolarZone™ Windshield Washer Fluid is a ready to use windshield cleaner and insect remover. Nemco Windshield Washer Fluid is formulated to effectively remove insects and road grime from glass surfaces, and is an anti-static fluid, non-corrosive to rubber and paint.

Nemco Windshield Washer Fluid is a blend of methanol, an anti-foaming additive, and water. This product is designed to keep the windshield clear and ice free over the winter months.

Nemco Windshield Washer Fluid is available in Concentrated, -35°C and -40°C formulations. For best results, ensure the windshield is heated by the defroster and the wiper blades are in good condition.

Notes

- This product contains methanol. Always use safe handling and storage practices.
- Methanol can be toxic if consumed. Never ingest and always keep away from children.

Typical characteristics – Windshield Washer Fluid

Test	Performance		
	CONCENTRATE	-40	-35
Freeze point, °C (°F)	-73	-40	-35
Total methanol (vol %), min	85.0	45.0	42.0
Inhibitors and water (vol %), max	15	55	58

Physical characteristics shown in the table are typical and may vary slightly.

Quick Mix Chart for Concentrate			
WWAF Conc. (vol %)	50	55	66
Water (vol %)	50	45	34
Freeze point, °C (°F)	-35	-40	-54
