

## Product Data Sheet

### Fuel De-Icer Isopropyl Alcohol (IPA) based Fuel Conditioner

#### DESCRIPTION

Nemco Fuel De-Icer is designed to improve engine performance by eliminating moisture and ice from fuel systems. This assures better starting in cold and wet conditions. Nemco Fuel De-Icer helps to keep carburetors, injectors and fuel systems clean and free of ice and moisture. It can be used with all grades of gasoline and diesel fuel. This product can be used when storing vehicles to help remove moisture from fuel tanks. Nemco Fuel De-Icer is an isopropyl alcohol based product and does not contain methanol.

#### Applications

- Gasoline engines
- Diesel engines
- Two and four-cycle engines
- This product is recommended for cars with fuel injection systems and is also excellent for powerboats, snowmobiles, two-cycle engines and most recreational vehicles. One 150 ml bottle will treat about 24 to 35 litres of fuel. Always follow your manufacturer's recommendations for proper use of this product.

#### Notes

- Nemco Fuel De-Icer is a flammable product, always follow safe handling procedures and store away from sources of ignition.
- Nemco Fuel De-Icer can be toxic if consumed. Never drink and always keep away from children.
- For more details about handling, storage, exposure control and personal protection please refer Material Safety Data sheet of pure isopropyl alcohol.
