

Fuel Injector Cleaner Gasoline Injector Cleaner

Description

Nemco Fuel Injector Cleaner is specially formulated for use in all domestic and foreign gasoline engines. This high strength product will safely remove residue and combustion chamber deposits from fuel injectors and intake and exhaust valves. Nemco Fuel Injector Cleaner dissolves accumulated deposits, quickly restoring lost power and helps smooth out rough idling. Generally, only one treatment is necessary to provide a noticeable improvement in performance.

Advantages

- Restores engine performance increasing fuel economy
- Removes moisture, prevents rust, and reduces exhaust emissions
- Contains Isopropyl, eliminates the need for a separate fuel deicer

Applications

Use the entire contents of a 350ml bottle of Fuel Injector Cleaner to an almost empty fuel tank and then fill with fuel to thoroughly mix the injector cleaner with the fuel. Do not refuel the vehicle until the tank is almost empty. For extremely dirty systems or clogged injectors, a second treatment may be required. Treat the system at every oil change or as required. This product will not harm catalytic converters or oxygen sensors.

Notes

Nemco Fuel Injector Cleaner contains isopropyl alcohol. Always follow safe handling procedures and store away from sources of ignition. To avoid damage, do not spill on painted surfaces. Not intended for diesel engines. NOT intended for diesel engines.

Use and Storage

Always read and follow your vehicle manufacturer's specifications before use. Fuel Injector Cleaner has a shelf life of 3-5 years under ideal storage conditions; keep packages closed while not in use, store in a cool and dry area.

Health, Safety, & Environment

GHS compliant Safety Data Sheets are available at nemco.ca under the Safety Data Sheets. For SDS in French, please contact info@nemco.ca. This material is WHMIS 2015 and TDG classified. The SDS contains valuable information critical to the safe handling and proper use of the product. Always take used chemicals to an authorized collection point. Avoid discharge into drains, soil, or water. As with any chemical, keep out of reach of children and animals.

Quality

Nemco works with respected industry suppliers. Nemco Resources Limited manufacturing facility in Winnipeg, Manitoba is proud to be certified to ISO9001. For questions regarding quality, please contact your local sales representative.

Typical Characteristics

Properties	Method	Performance	Properties	Method	Performance
Colour	Appearance	Red	Freeze point, °C(°F)	ASTM D3321	-76(-105)
SPG, 15.6°C	Internal	0.790	Flash point, °C(°F)	ASTM D56	14(57)

These characteristics are typical of current production, variations in these characteristics may occur.
